

General

Whenever I get a phone call or a notification, the recording sometimes gets interrupted and my videos and highlights don't save (they do end up in the "Recovered Videos" area). How do I fix this?

You should turn on "Do Not Disturb" when using ScoreCam.

You can also set up a "Focus" to automatically turn on "Do Not Disturb" when using ScoreCam.

Here is more information: <https://support.apple.com/en-us/HT212608>

Basically, the steps are:

- 1) Go to Settings > Focus.
- 2) Tap the Add button (+), then tap Custom or browse additional options.
- 3) Enter a name for your Focus
- 4) Choose a color and an icon to represent your Focus, then tap Next.
- 5) In the "Set a Schedule" area, Tap "Add Schedule"
- 6) Tap "App" and then select the ScoreCam app.
