### Did you know?

- To access **Scoreboard Settings** quickly, you tap-and-hold the scoreboard
- You can tap the **Recording Timer Label** (at the top of the page) to quickly hide or show the scoreboard
- Not all scoreboards are created equal and you can make **modifications to customize** elements in the "Team Names, Colors & more" section in Scoreboard Settings
- **Family Sharing** of subscriptions are now supported (Apple finally allowed this feature in iOS 14.1 in December 3, 2020)
- To enable "**AE/AF Locked**," which will lock the focus and exposure on the camera, tap-and-hold on the screen. To disable "AE/AF Locked" (and enable Auto Focus"), tap-and-hold on the screen again
- Selecting "**<none>**" for fields (i.e., Game Type, Description, Score Type, etc.) will remove those fields from the scoreboard--you do this by going to the "Team Names, Colors & more" section in Scoreboard Settings
- You can **disbale Game Clocks and Shot Clocks** and they will not appear on the scoreboard--you do this by going to the "Team Names, Colors & more" section in Scoreboard Settings
- You should turn on "Do Not Disturb" when using ScoreCam to avoid phone calls and other interruptions. (see this [FAQ](#))

### Tips and Tricks

Fix uncommon or strange issues, usually caused by an install problem:

- Uninstall (delete) the app, restart the device, reinstall (download) the app
- NOTE: Make you have no videos in the "Recovered Videos" area (Tap ScoreCam's Library Icon > Recovered Videos) as these will be gone once you delete the app. Additionally, all your settings will be reset
