

Scoreboard Settings

How do I access the Scoreboard Settings?

On the ScoreCam app you can do this two ways: (1) Go to Settings (gear icon on the top right of the page) -> tap on "Launch Scoreboard Settings." (2) Tap and hold on the scoreboard, which will take you directly to the Scoreboard Settings.

On the Scoreboard Remote app, you can do this by going to Settings (gear icon on the top right of the page), which features all scoreboard setting features.

Unique solution ID: #1009
