Scoreboard Settings

How do I display the Branding images on screen?

You can toggle the branding image from the branding configuration settings (i.e., Scoreboard Settings > Branding) by enabling the "Show" toggle. This is the way to go if the image will always be on screen.

Alternatively you can also toggle branding images from a gesture setting. Under settings, go to the "Gesture Assignments" section and then assign "Toggle Brand Image 1" (or image 2) to the gesture. "Top Button Single Tap" is the easiest way to toggle branding.
