App Settings

Can I still pause the recording when live streaming?

Yes, when you are Live Streaming AND you have "Save Video While Streaming" enabled you can pause the recording. (Live Stream will not be paused and will continue streaming until you stop recording/streaming).

To enable "Save Video While Streaming" follow these steps: go to the main Settings -> make sure "Enable Live Stream" is turned on -> tap "Live Streaming Setup" -> then enable "Save Video While Streaming" (towards the middle of the page).
