Scoreboard Settings

For the Longboard II scoreboard, how do you change the FIRST SET value?

On the ScoreCam app, make sure the "Game Type" setting is set to "SET" or if you want to change this value, follow these steps. Launch the Scoreboard Settings -> tap on "Team Names, Colors & More" -> tap on "Game Type" -> select "Set" or whatever other value you desire (i.e., Game, Half, Per, Qtr, etc.).

Then to change the set number of sets won by each team, launch Scoreboard Settings -> go to the bottom of the page that says "Set" (in the middle between two numbers) -> then increase of the value of the set number for whichever team, then press "Done." The Longboard II will then read "HOME LEADS 1-0," for example, on the far right of the scoreboard.
