Scoreboard Settings

Is there anyway to quickly hide/show the scoreboard?

From the ScoreCam, the easiest way to hide/show the scoreboard is to tap the video timer (example: tap on 00:00:00) at the top of the screen. This will quickly hide/show the scoreboard.

From the ScoreCam app, there are two other ways you can do this: (1) Go to ScoreCam Settngs -> Scoreboard (at the top of the page) -> then disable "Show Scoreboard." (2) Tap and hold on the scoreboard -> then disable "Show Scoreboard" (at the top of the page).

On the Scoreboard Remote app, you can do this by going to Settings (gear icon on the top right of the page) -> Controls -> then enable "Hide ScoreCam Scoreboard."
