Live Streaming

YouTube now requires at least 50 subscribers to Live Stream on mobile devices. How does this affect ScoreCam users?

You are correct, at least for mobile streaming using the YouTube app. Here is the link on YouTube's policy as of February of 2022.

Currently this does not appear to affect ScoreCam users but this could change at any moment and there is nothing we can do about any future changes.

Recommendations: Give Twitch a try as it seems to produce better quality videos and the lag time is a lot less. At least have it as a backup in case YouTube stops working for users with less than 50 subscribers.
