

General

After updating the Scoreboard Remote app the video on the ScoreCam device kept shutting off when I had my remote control connected to it. I also had difficulty connecting the remote to the ScoreCam recording device. How do I fix this?

Sounds like there was an issue with updating the Scoreboard Remote and/or ScoreCam app. Try these steps:

1. Remove the Scoreboard Remote app and ScoreCam app from your devices ([How to delete apps on your iPhone, iPad, and iPod touch](#))
2. Restart the device ([Restart your iPhone, iPad, or iPod touch](#))
3. Reinstall the [Scoreboard Remote](#) and [ScoreCam](#)

NOTE: Make sure you have no videos in the "Recovered Videos" file as these will be gone once you delete the app. Additionally, all your settings will be reset.
